Please note that search.creativecommons.org is **not a search engine** and is powered by other independent organizations. CC has no control over the results that are returned. **Do not assume that the results displayed in this search portal are under a CC license.** You should always verify that the work is actually under a CC license by following the link. Since there is no registration to use a CC license, CC has no way to determine what has and hasn't been placed under the terms of a CC license. If you are in doubt you should contact the copyright holder directly, or try to contact the site where you found the content.

NOTE: Creative Commons also has searchable content in web pages, video, music and other media. In addition, your students can license their own ORIGINAL work on Creative Commons.
